Traycard Inside Template

INSTRUCTIONS PLEASE READ!
BLEED INFORMATION:
It is very difficult to print exactly to the edge of
a sheet of paper/card, to achieve this it is neces-
sary to print a slightly larger area than is
needed and then trim the paper/card down to
the required finished size. Images, background
images and fills which are intended to extend
to the edge of the page must be extended
beyond the trim line to give a bleed. Extend
your background photos, colors etc into the red
area to ensure edge to edge printing on the
finished cut product.

Visible from closed case through
clear tray adjacent to front cover
